Letter Writer's Copied. The Minister with the money and his own. There was a letter from the Minister to the Minister.

Q—When you gave that back to Mr. Stratton how long was it before you saw it again? A—It was not long before I saw it again.

Q—Do you know where he got that letter? A—No, I do not know where he got that letter.

grus of the whole matter. There is no denying that groups of change have been radical ones. Some of our editors seem to think that they are entitled to an explanation as to how the new results have been obtained, and, in order to pay the Assessment Commission, they should receive free of charge, an explanation of the whole matter. We must confess that this request seems to us a reasonable one. Can the Assessment Commission find time to answer the question through the press, or will they prefer to let it to be asked by the answer comes through the City Collector? It seems to us that this would be the easiest way to strangle him out (the tangle and perhaps deal away with what now looks like a nervous case of assassination.

Well Trimmed Clothing

The trimming of clothing has much to do with its success or failure in the eyes of careful dressers. The money the manufacturer saves by cheapening the trimming of his clothing is not to the interest of the wearer. The best trimmed ready-made clothing in Canada is Sanford's of Hamilton, which is sold in Belleville exclusively by ourselves. In this, as in all other respects, it is like first class made to measure. But it costs only half as much, and this recommends it to men who want to be economical, as well as fashionably attired.

Times Have Changed

Not many years ago a ready-made suit could be distinguished from one made-to-measure, "a mile off." But brains and money can do wonders, and to-day we can show you a suit all ready to put on, at \$10 that would do credit to the best merchant tailor in town. It bears the label of the W. E. Sanford Co., whose garments have a reputation the country over for high quality and correct style. No man who desires to dress well at a moderate expense should refuse to consider the claims of "Sanford" clothing.

TIMELY TOPICS

It looks as though Stratton and all his witnesses were going to prove an alibi.

As John Thacker, the Yankee inventor of a generation ago used to say: "There's nothing so handy as an alibi. If you ever get into trouble, my son, and haven't got an alibi, take steps to get one at once."

There was a good hard frost last night, and many of the apples were dropping their leaves this morning.

Perhaps it's just as well you didn't change your winter underwear yesterday.

If the wind blows a little harder it might have blown the rails off Street street.

How it seems that the affair at Fink was caused by a huge land-slide, and that the witnesses were victims of a volcanic eruption at that. (As for ream-oration, "We don't want this fair dis-ruption to stop any of the fairness set by South American landslides."

Having been introduced to the exercises of the air force, the Aldermen ought now to be able to get the expenditures from running up town fast.

BYMUS FOR THE TIMES. Out the merry month of May. Has just arrived to stay. But thirty days away. Don't make you feel so gay. To see the kids at play? If it doesn't rain a day. The lawless of the boy? Are delightful any day. And the perks a good percent say. Sure, though I might say. A public bath would aid the day. On the hand down that way. Now the sportsman are out. And they're doing pretty gay. Now they've got a place to play. On in contact you may say. That the Cricket Club has beaten. When the sun wouldn't pay. And it really don't too and. To sing any more to-day. So I'll guess I'll take away.

The question of the rails on Front St. side may be a tender subject tonight.

There is no trash in the report that the young ladies of this city will start a golf club. There are no young ladies, especially as there is less than a month away.

There's always a little bit of back-ward, but the association are right on time.

It is to tell the "close season" for independent work, and to show that though they have "made with the back" they are in some place.

He can say of our esteemed City Councilman, born (except in which seems probable, by the way they write) we might mention that the name of the second, in the County investigation, is Stratton.

Grand Trunk Pacific Bill Before
 Railway Committee.

Will Ask For the Same Treatment From
 the Government as Was Granted by
 the Canadian Pacific Railway—Question
 of Ocean Port—Stations and a House
 and Complete Road to Winnipeg
 Point.

Ottawa, May 8.—The long-expected
 Grand Trunk Pacific Bill came before
 the Railway Committee yesterday.
 This bill says nothing of subsidies.
 The matter, if it comes up, will be
 dealt with separately.

The big committee-room was packed
 to the doors. A map of the proposed
 route filled a large part of the
 wall behind Chairman Ryan. It
 showed a line running from Quebec
 to North Bay, thence north to
 Winnipeg, and thence west to
 Edmonton. The line, through
 Manitoba to the Red River, was
 to be built on the same route as
 the Canadian Pacific. The line
 had been adopted so as to run
 through the heart of the province,
 and to avoid the expense of
 Quebec, instead of dipping down
 to the Gulf of St. Lawrence.

The bill was introduced by
 Joseph L. Abbott. Connection
 was made with the old Grand Trunk
 Railway. It was objected that
 it did not show other lines differently,
 but that was not clear enough.
 The bill was then read by
 Mr. Abbott. Mr. Ryan, in
 support of the bill, said that it
 was a concession of right in the
 matter, and that the development of
 the country was being advanced.

GRAND TRUNK PACIFIC BILL

Down East M.P.'s Advocate Line Beginning at Montreal, N.B.

Commons Railway Committee Secretary... Information from... and Rev. Brown to Canada's...-Arrangement... the International... in Canada.

Ottawa, May 14.—The Railway Committee met yesterday, when the Grand Trunk Pacific bill came up again for consideration. The preamble was adopted without discussion.

It is only to question by Mr. A.E. Kemp, Mr. Hays said that the preamble might be amended with the International and the Grand Trunk Pacific. The proposition of re-amending the bill was rejected.

Mr. Hays also stated in reply to Mr. Kemp that under an arrangement made over to the International, considerable quantities of grain for shipment by the Grand Trunk Pacific would be able to hand over the products originally consigned to the International to be shipped. Products originally consigned to the International would find their way, he said, to Halifax and St. John with great facility as far as Portland.

"I," said Mr. Hays, "fell to make a satisfactory arrangement with the International Railway, then we will build a line to a winter port on the Maritime Province, and Mr. H. J. Logan will not be a complete loss to the International."

"You do not," said Logan, "propose to build independent of the International?"

Mr. Hays "I would not say that what I did say was that if satisfactory arrangements were made with the I.C.R. then we would build the Maritime Province. If they did build into the Maritime Province, then I did not build into the Maritime Province. If they did build into the Maritime Province, then I did not build into the Maritime Province."

Martino Province "then it would be a question of the Maritime Province. Mr. Logan—"He was intended to be a question of the Maritime Province. Mr. Logan—"He was intended to be a question of the Maritime Province. Mr. Logan—"He was intended to be a question of the Maritime Province."

Mr. Hays—"Rather north or south, somewhere near there. He could not say anything more were made."

Mr. Hays explained that while the arrangement between the Grand Trunk and the International might be satisfactory to the Grand Trunk, it was not to the International. The rate which the I.C.R. received from the G.T.P. at Montreal was the same as that which was paid to the G.T.P. to Portland. The distance to Halifax and St. John was very much greater, and therefore the arrangement would require it to be amended considerably in this regard. The J. C. R. could handle at Halifax, and St. John, all the traffic that the Grand Trunk would give.

Mr. Fowler spoke of the charter he had said so that the company would be compelled to take the traffic to the Maritime Province. Mr. Hays replied that the company could not control the ships.

From a National Standpoint

Mr. Hays said that while the company agreed to carry their line to the Maritime Province, the point of making the road an all-Canada road, with a Canadian owner, could not be obtained. He was in favor of the terms of the proposition as now before the committee.

The committee should grapple with the question from a national point of view. The only way that could be done properly by the committee was to have the company guaranteeing a certain amount of the wheat loads of the great west. He did not think that the people were just now clamoring for a trans-continental line, before any money was granted to the Grand Trunk. The road should be merely to go to a Maritime Province port. He spoke from a Canadian standpoint.

Mr. Logan said the committee should not let it be that the road was constructed on Canadian territory with an ocean port on the Atlantic and the Pacific. He had no confidence in the Grand Trunk carrying out its promise. It had already looked all the promises it had made in connection with the trans-Canada railway.

Mr. Hays now said was that the Maritime Province would be an arrangement. What he wanted to do was to have the company make it to the company's advantage to take the traffic to the Maritime Province.

the company suits to Montreal, the Atlantic coast, and the Pacific coast. Mr. Wade (Atlantic), spoke strongly for the company, and said that the company would be able to handle the traffic to the Atlantic coast, and the Pacific coast. THE AUSTRALIAN STRIKE

Premier Irvine's Bill Proposes Drastic Remedies.

The House, Melbourne, May 14.—In the Legislative Assembly yesterday, Premier Irvine made a speech on the subject of the strike. He said the country had a long history of favoring established authority, and the country was now in a position to do so.

The Premier then moved the second reading of a bill providing for the suppression of the strike. He said that the bill was not retrospective, and it would not result in force after the termination of the strike, it would be giving four or five weeks in to a year's imprisonment, with loss of pension, and will be in force for five years.

The bill also forbids interference with employees, the collection of money, or encouraging the strike in any manner.

The bill further compels the police to destroy documents, encourage the strike, make private property of offenders against the law, and the police to suppress the strike.

The Premier also brought forward a bill to amend the law relating to the strike. He said that the bill was not retrospective, and it would not result in force after the termination of the strike, it would be giving four or five weeks in to a year's imprisonment, with loss of pension, and will be in force for five years.

Not satisfied with equaling in style, fit and excellence of workmanship the made-to-measure garments the best tailors produce, our makers are now giving us the same fabric which have heretofore been exclusive with the Custom Tailors.

Our showing of these suits is very extensive.

They are made like the average man wants; they give him the style and exclusiveness he seeks without the extra cost of the tailor.

Even the most expert criticism will fail to discover that these suits were not custom made.

The broad showing was made including as it does a very fine lot of different propositions practically assure a perfect fit for every man.

But in some cases an exact fit cannot be secured immediately and then we do as the tailor would do as a try-on make the necessary alterations that would secure perfection of fit.

SUITS

The Entirely Different Sorts.

Not satisfied with equalling in style, fit and excellence of workmanship the made-to-measure garments the best tailors produce, our makers are now fashioning their suits from the same fabrics which have heretofore been exclusive with the Custom Tailors.

Our showing of these suits is very extensive. They are such that the average man wants to give him the style and exclusiveness he seeks without the extra cost of the tailor.

Even the most expert critics will fail to discover that these suits were not custom made. The broad showing we make including as it does every size for men of different proportions practically assures a perfect fit for every man.

Not in some cases it cannot be secured immediately and as the tailors would do at a try-on—take the necessary alterations that would more perfection of fit. Many mixed customers—most of them in Chicago—three and four button neck style including the new straight front.

\$6.50 to \$15.00

And by the way you can better judge the unmatchable quality of these suits if you'll do a little comparing.

Top Coats \$6.00 to \$12.00

SUITS FOR THE ENTIRELY DIFFERENT SORTS.

Not satisfied with equalling in style, fit and excellence of workmanship the made-to-measure garments the best tailors produce, our makers are now fashioning their suits from the same fabrics which have heretofore been exclusive with the Custom Tailors.

Our showing of these suits is very extensive. They are suits that the average man wants—they give him the style and exclusiveness he seeks without the extra cost of the tailors.

Even the most expert criticism will fail to discover that these suits were not custom made. The broad showing we make including as it does every size for men of different proportions practically assures a perfect fit for every man.

But in some cases an exact fit cannot be secured immediately and then we do as the tailors would do at a try-on—make the necessary alterations that would secure perfection of fit.

Every mixed customer—best effects in Charvats and four button neck styles including the new straight front.

\$6.50 to \$15.00

And by the way you can better judge the unassailable quality of these suits if you'll do little comparing.

SOME GOOD SENTIMENTS FOR EMPIRE DAY.

COL. POMEROY WRITES TO THE PUPILS OF MISS CHURCHILL'S CLASS.

Mr. Paulson was to have delivered an address today—Empire Day to the pupils of Miss Churchill's class. Another engagement compelled him to choose from his list, but he sent the following letter of regret, which contains sentiments worthy of the day and of the Empire:

Miss Upphams, Queen Victoria's School, Belleville.

Dear Miss Upphams, I regret that I will be pleasantly bound from the city tomorrow, having to take part in the ceremony of laying a foundation stone in the village of Windsor, with other Belleville citizens. Otherwise it would have given me great pleasure to have had the pleasure of addressing your class of loyal boys and girls on the subject of Empire Day. I hope they will understand the meaning of the day and the importance of the day.

Is something new and it will fill a long felt want, as it works equally as well on either hard or soft wool. It is a combined floor stain and varnish at one application and it is practically indestructible, it is sure to please you.

That Boy Needs Boots Again!

CAN'T HELP IT!

Boys rush into all sorts of games and sports and play away with their boots. Just received large shipment of

Our Special for Boys

Made of Cordovan. Some call it mule-hide, some call it horse-hide—we call it Cordovan. There is

One Trouble With This Boot.

The trouble is we can't get enough of them. Only one tanner tans the leather, only one firm makes the shoes, and neither can begin to supply the demand. So we are out of them half the time. They stand the strain better than any boots we know of.

- Small Boys 8 to 10 1/2 \$1.50

"Ferry" McFeever, the pugilist, saved a woman from being hurled to death at a fire recently, and earned more glory in five minutes than he did in ten years' prize-fighting. Here's the glad hand to "Ferry," say the sages.

A steam plow breaking the ground, a roller follows the plow and a seed sower completes the work. A powerful electric light is attached, and the work goes merrily on for twenty-four hours in the day." What would have been thought of a suggestion of farming so quick a gait? No 90 years ago!

SUITS FOR MEN

The Entirely Different Sorts.

Not satisfied with equaling in style, fit and excellence of workmanship the made-to-measure garments the best tailors produce, our makers are now fashioning their suits from the same fabrics which have heretofore been exclusive with the Custom Tailors.

Our showing of these suits is very extensive.

They are suits that the average man wants—they give him the style and exclusiveness he seeks without the extra cost of the tailor.

Even the most expert criticism will fail to discover that these suits were not custom made.

The broad showing we make including as it does every size for men of different proportions practically assure a perfect fit for every man.

But in some cases an exact fit cannot be secured immediately and then we do as the tailors would do at a try-on—make the necessary alterations that would secure perfection of fit.

Fancy mixed casimere—cost effects in Cheviots—three and four button neck styles including the new straight front.

\$6.50 to \$15.00

And by the way you can better judge the unassailable quality of these suits if you do a little comparing.

Terrible Accident To a Young Girl

DAUGHTER OF JOHN BALSTON, OF MOUNTAIN VIEW, PROBABLY.

A terrible and probably fatal accident happened at Mountain View, Ind., last night.

It appears that Mrs. John Balston was coming down the big hill, which is the village way to the city, with him in the conveyance being his wife and little daughter, who is about 12 years old. When about half-way down the hill the conveyance, which was a small car, was thrown over the side of the hill and fell about 40 feet. The child was killed on the spot. The mother was severely injured and is now in the hospital. The car was a small one, and was being driven by the father. The accident occurred at about 10 o'clock last night.

THE HON. GEORGE WASHINGTON BROWN AND HIS PROGRESSIVE POLICY.

It is surprising that it has taken the prohibition advocate so long to appreciate the true intentions of the Hon. George Washington Brown's policy upon the question of temperance and prohibition. They have, after many years, learned what was known to the Hon. George Washington Brown from the first. It is prohibition, when in prohibition, and merely lagging with the liquor interests when ever an election was and is being held. His better evidence of this is that the Hon. George Washington Brown's policy is to keep the liquor interests out of the Legislature.

The Temperance Liberator, a journal published in the interests of temperance and reform, has placed its efforts to speak out plainly. It deals with the Ontario Premier in the following style:

The long-delayed legislation on the Inauguration question is again postponed. No reasonable cause can be given for this delay. The Hon. George Washington Brown's policy is to keep the liquor interests out of the Legislature. The Hon. George Washington Brown's policy is to keep the liquor interests out of the Legislature.

GOOD LUNCH FOR TEN CENTS.
J. ARTHUR MARSH.

There were plenty of popular air at headquarters last night, but the air that blew off the bay, was not included in the number.

Indoors of Toronto's drill school, hundreds of the fact that this city, which is the largest in the world, is a garden spot of Ontario, has some at it.

What do you think of this, gentle reader? The Hon. George Washington Brown's policy is to keep the liquor interests out of the Legislature. The Hon. George Washington Brown's policy is to keep the liquor interests out of the Legislature.

Sh-sh-sh! weather. Beautifully equable climate. What did you say the price of coal was? The Hon. George Washington Brown's policy is to keep the liquor interests out of the Legislature.

Col. Matheson, M.P., is doing his best to answer that much-mooted question, "What did the money come from?" and between ourselves, we think he has pretty nearly struck the bottom of the money bag.

THE ACCIDENT AT CORBOVA MINES.

CONOR'S JURY EXONERATED COMPANY FROM ALL BLAME IN THE MATTER. In consequence of the accident at Corbova gold mine on Tuesday night last, whereby a workman named Eneas Kearney lost his life, an inquest was held yesterday afternoon.

"We find that the man, Eneas Kearney, came to his death by falling from a ship at No. 3 shaft on the morning of May 28th last. It was purely accidental, and the blame is not on the company or the men, but on the ship."

"The accident occurred at the mine, and the company is exonerated from all responsibility."

King Alfonso has inherited \$7,000,000. May be the richest man in the world, but he is not the richest man in the world.

Don't throw away your money. If you want to get something good and new, go to the Hon. George Washington Brown's policy.

If "A. G. Allen" will send his name to the Hon. George Washington Brown's policy, he will be able to get something good and new.
